

# Project 4: Employee Attrition Dashboard (Excel)

## Business Intelligence Analyst Internship Project

### ■ Project Overview

- Objective: Understand employee attrition trends and provide HR insights.
- Dataset: IBM HR Analytics Employee Attrition Dataset.
- Tools: Excel (PivotTables, PivotCharts, Slicers, Data Cleaning).

### ■ Key Features

- ■ Attrition Rate calculation
- ■ Average Age of employees leaving the company
- ■ Attrition analysis by Department, Gender, Job Role, and Age Groups
- ■ Interactive filters using slicers
- ■ Clean dashboard design for quick decision-making
